

NF RENT

PUMP RENTALS

North Fringe Industrial Technologies Inc. is the company to call when you need to move fluids, sludge or slurries. NF RENT is North Fringe's pump rental division which carries Skid and Trailer Mounted Diesel Pump packages and Submersible Pumps for dewatering, slurry or sludge, Centrifugal Pumps and many other types. North Fringe can provide power generating packages, piping and most other pieces of equipment to assist with your pump rental requirements. We can handle all liquids; water, trash, corrosives, slurry sewage and oilfield products to name a few. We support our customers with our excellent fleet of pumping products; ensuring every piece is thoroughly tested before it goes to work.
